

QUAD PULSE PACKAGE CARTRIDGE

ADVANTAGES

- Long filter life with segmented cleaning
- Patented Quad Pulse Technology segmented filter
- Continuous double seal gaskets give added insurance against leaks
- Lower compressed air compression needed for pulse cleaning

Application

The Quad Pulse Package filter cartridges can be used for applications in the pharmaceutical and chemical industry which produce high concentrations of hazardous dusts such as tableting, coating, granulating, filling, drying, mixing, blending or packaging.

Comment

Available media options:
- HemiPleat XFC Extreme Fire Retardant Carbon
- Dura-Pleat DPA Aluminised
- Dura-Pleat DPTC PTFE + Carbon

Camfil's dust collection filter medias are all tested to meet with European dust filter standard EN 60335-2-69 dust Class M
